Art Unit: 2627

1. Applicant's election without traverse of the invention of Group II in the reply filed on 6/26/06 is acknowledged.

2. Claims 1-8 and 25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/26/06.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 26-29 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by the prior art of figures 1-5.

The prior art will have some portions of the edge that do not have defects. Thus the head of the prior art reads on these claims.

5. The following is a statement of reasons for the indication of allowable subject matter:

Allowed claims 9-24 are read in light of the disclosure to define the direction of the grinding operation relative to the axis of the slot, i.e. that the axis of the grinding is substantially perpendicular to the axis of the slot.

Art Unit: 2627

6. Applicant has not responded to the objection made to the drawings in paragraph 6 of the first Office Action. That objection is repeated below. Any response to this office Action that does not include a response to the objection to the drawings will be considered deliberately non-responsive.

7. The drawings are objected to because the inventorship and attorney docket identification should be removed from the top of each sheet of drawing.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

WEST is cited for disclosing a tape head structure of interest.
